GLOBET

Outreach &PR Committee

The Outreach & PR committee aims to:

promote the mission of GOBLET, publicise the organisation's membership benefits and teaching resources, promote upcoming events via announcements and website updates;

support GOBLET with its marketing and promotional aspects, from brochures to booth exhibits, etc.

GLOBET

Outreach &PR Committee

The Outreach & PR committee duties are to:

Support GOBLET in defining and evolving its communication and outreach strategy; delivering the communication and outreach strategy;

produce and maintain a fresh and up-to-date portfolio of informative material about GOBLET and its activities;

support GOBLET with its marketing and promotional aspects, from brochures to booth exhibits, etc.;

maintain social networking interactions, and providing members with opportunities to participate in GOBLET initiatives.

GLOBET

On signing up to join GOBLET, you will:

Become part of the global B3CB training community

Receive a monthly news bulletin

Be able to upload and share your training materials

Organise and disseminate your course pages

Gain access to GOBLET's international training meetings

Gain access to GOBLET's committees and task-forces

Gain access to a network with experience in developing successful courses and training materials

Training Portal

The GOBLET portal allows you to browse course pages and training materials, to download content of interest and/or to upload course pages and training materials. If you would like to contribute your training resources, please create an account, or become a member and join us! at:

List of training materials and course pages

Displaying 1 - 30 of 111

Updated date ▽	Type	Topic	Audience
NGS for evolutionary biologists: from basic scripting to variant calling *Updated 3 days 20 hours ago*	Course page	Variant Analysis, Variant detection, Variant calling	wet-lab biologists who are embarking upon research projects that will require the handling and analysis of next generation sequencing data in organisms for which a reference genome is available
Protein Networks and Systems Biology *Updated 3 days 20 hours ago*	Course page	Protein-Protein Interactions, Protein networks, Systems Biology, Protein docking, Graph theory, protein interaction prediction	Students and researchers in any field of bioinformatics with background in biology or computer science but weak or no previous experience in protein interaction prediction, networks and systems biology
Introduction to Linux Command Line *Updated 2 weeks 2 days ago*	Training material	Linux basics	
EMBO 2015 *Updated 2 weeks 2 days ago*	Training material	protein-protein interaction networks, multiple sequence alignment, Network Visualization, bioinformatics	PhD students, post-docs
TBHD15 - Translational Bioinformatics in Health and disease *Updated 3 weeks 4 days ago*	Course page	Precision Medicine	healthcare professionals, Clinical Bioinformaticians, bioinformaticians
CSDM15 - Chromosome Structure Determination using Modelling and Hi-C Data	Course page	Chromatin biology, Epigenetics, Crosslinking, Genomic Domains, Chromosome 3D Architecture, Genome Organisation, Hi-C Data	Biologists, bioinformaticians

Brand Name

Visit Cards

GLOBET

USB

Will contain GOBLET materials and
be part of the "Welcome package"

ONGOING work

- Newsletter 4 /year

- Bioinformatics Brochure (To PI´s)

- Youtube spot presenting GOBLET

- 3 minutes GOBLET presentation series

- USB

GLOBET

Planned work

- Identify Conferences/Meetings where to present GOBLET

- Identify other projects/initiatives where to present GOBLET

- Coordinate with Fund Raising Committee

- Prepare "Welcome package"

- Coordinate with the web pages: list of presentations at meetings, on publications etc,

- TED presentation … ?

- Vlog, "Article " in JOVET?
